FOR IMMEDIATE RELEASE

DMWI Mission Control Gives Prominence a "Go" for Launch on November 6th

Pre-Orders Now Available with Exclusive In-Game Bonus

Long Island, New York -- Digital Media Workshop, Inc. today announced a release date for their upcoming first-person, point-and-click adventure game, Prominence. The game will launch on November 6, 2015.

Prominence will be available via Steam (http://store.steampowered.com/app/270230) and directly from the official website (http://www.prominencegame.com).

Pre-orders can be made through the official site, and offer an added bonus: Players can choose to join the Letarri colonization mission, which will give them the option to select a title and have their name appear in-game as a founding settler of New Letarr.

The final round of beta testing is currently in progress. Developer Mike Morrison reports, "Reactions by players in the closed beta have been very positive, particularly with respect to production values, story, puzzles, and emotional impact. We are also implementing some enhancements based on player feedback so that we can offer gamers the best possible experience when Prominence is released."

Pre-orders are available here: http://www.prominencegame.com

Add Prominence to your Steam Wishlist here: http://store.steampowered.com/app/270230

Prominence will launch on Win XP/Vista/7/8/10 in English and German, with additional localizations planned for French, Spanish, Italian, Polish, and Russian.

ABOUT PROMINENCE

After living for generations as persecuted refugees, the Letarri people launch an interstellar mission to colonize a new world. When things go terribly awry, the fate of their people falls into the hands of a lone adventurer. Now it's up to you to unravel the mystery of what happened. Can you save them and their mission, or is it already too late?

Prominence is a first-person, point-and-click, science-fiction adventure game. Players solve narrative-driven puzzles, gain and use special skills, interact with computers, and hack subsystems while they collect clues about the mission and the crew.

ABOUT DIGITAL MEDIA WORKSHOP

Founded in 1997, Digital Media Workshop, Inc. is an award-winning multimedia production company based on Long Island, New York. Specializing in audio production, 3D design and animation, motion graphics, and video production, the studio has developed assets and content for the Web, print, TV, DVD, and games.
